**Subject:** Re: Anaconda Mine and NV talking points

Sure thing Erika. Angeles and Harry will work up some talking points. Do you know which Nevada tribes will be attendance?

Hi Enrique

I am the OLEM Tribal Program Coordinator and we are hosting our tribal partnership group, called the Tribal Waste and Response Assistance Program (TWRAP) Steering Committee next week. Our Acting AA for OLEM will be speaking to this group next Tuesday and we have several sessions related to Superfund planned for the week.

I understand that things were tense at last week's Region 9 RTOC meeting during a discussion of Administrator Pruitt's decision to take the Anaconda site off the NPL and turn over management of most of the site to the State of Nevada. We want to make sure our messaging is consistent with what you said last week when we meet with our tribal group next week. Can you please share any talking points or messages related to the decision?

I'm leaving for the day today (Thursday) but I'll be around tomorrow, Friday, 2/16. Please feel free to give me a call. Thanks!

Erika Wilson
